# About us

We're a sourcing agency that likes to do things a little differently.

We think sourcing products from low-cost regions like China and Vietnam should be accessible to any business. But, it can be a risky, costly, and time-consuming endeavor. We don't think it needs to be that way.

That's why we've created a suite of products and services that are cost-effective and eliminate the key frustrations that businesses big and small face when sourcing products from overseas.

With offices in Australia and New Zealand, and with teams on the ground throughout China, we are uniquely placed to support you at any stage of your sourcing journey.

## **We are having a lot of fun along the way!**

*Epic Sourcing's industry knowledge, innovative approach and tireless energy have been invaluable in helping us set up our new business. We had a diverse and unusual shopping list, but no stone was left unturned until we found what we were looking for. The challenges of the global shipping crisis have added some stressful moments but as always TK remains calm and professional and his excellent communication means we are tracking to achieve a great result...and we are having a lot of fun along the way!*

— Zac Fitzgerald, Founder at Hoop33
