

Custom designed and built conveying solutions

ICS design, manufacture and install conveyor systems from single units to full turn-key lines. We also carry a range of spare parts and can provide ongoing maintenance services. With over 25 years experience in the beverage, meat, dairy and materials handling industries we can offer alternative solutions to common plant layouts using the most up to date technology and conveying practices.

We can offer components from world leading brands, Flexmove, Movex, Intralox, Thermodrive, Niko and many more, from which we can supply parts only through to a fully integrated system - from extreme hygienic to packaging conveyors.

- Design
- Manufacture
- Installation
- Turn-Key Systems
- Conveyor Belt & Components
- Project Management
- Plant Upgrades & Safety Guarding

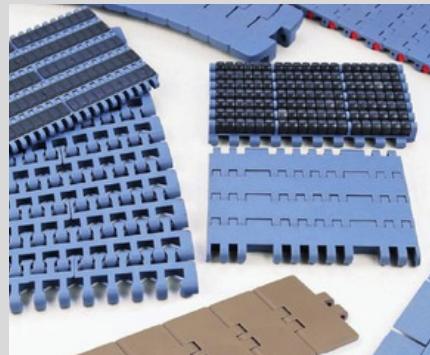

Flexmove is a modular conveyor system, available in both aluminium and stainless steel. It can be supplied as a kitset or fully assembled as a complete turn-key application. This system provides a good platform for future expansion and re-layout capability.

Movex

Innovative Conveyor Systems are pleased to announce our partnership with conveyor specialists Movex . This new but trusted partnership has been thoroughly prepared to enhance the range, quality and service offered to our customers.

Intralox are world leaders in modular plastic conveyor belting, setting the standard in food beverage, container and other industries worldwide.

Other technologies that have been added to the Intralox range include abrasion resistance, spirals, Activated Roller Belt™ (ARB™).

Intralox ThermoDrive®

ThermoDrive Belts are made with 100% closed surface, making them perfectly suited for hygienic food-processing applications. Unlike Traditional flat belts, these belts drive on sprockets like a modular plastic belt and are not under tension, enabling easy lifting for conveyor cleaning.
